

# Elefint is a strategic design studio in San Francisco. We partner with organizations working for social good to use the power of design to bring great ideas to life.

## We bring a fresh perspective to storytelling

We approach each project with a new set of eyes, a fresh perspective, and a deep commitment to maximize impact. Our multidisciplinary team of designers brings a diverse range of creative skills to the table, from branding and data visualization to motiongraphic videos and website design.

## We keep strategy at the heart of our work

Our process begins with a clear understanding of the strategic goals of your organization as well as the motivations of your target audiences. These insights inform our design work and provide direction throughout the life of the project.

## We understand nonprofits

Working with 200+ nonprofits, we understand the unique challenges nonprofits with limited resources and personnel face. To meet our client's needs, we provide flexible timelines and budgets, and offer ample guidance throughout the process.

## We stay inspired

As a B Corp, we are committed to working exclusively with social impact organizations. We pour all of our time and talent into supporting meaningful work. It takes grit, flexibility, and a desire to work on challenging projects. Whether you're just starting out or want to reposition yourself in the market, we're here to help.

## We do some pretty great design

But don't just take it from us! Take a look at work and hear what our former clients have to say: [www.elefint.com/our-work](http://www.elefint.com/our-work)

## OUR CLIENTS
